

REMARKS

Applicants respectfully request entry of the amendments in the subject application. This amendment is in response to the telephone interview between Michael Bernadicou and Examiner on July 25, 2007 regarding the subject application. Applicants have amended claims 1 and 7 to comply with Examiner's suggestions to more distinctly claim the subject matter Applicants regard as the invention. Applicants have complied with Examiner's suggestions to incorporate more description into the claims regarding the structure of the gate electrode: the structure of the gate electrode sidewalls; the orientation of the gate electrode sidewalls to the semiconductor body; and, the orientation of the gate electrode undercut and the wider bottom portion as depicted in the figures and discussed in the specification. Support for the amendments is found in the specification, the drawings, and in the claims as originally filed. No new matter has been added as a result of these amendments.

Respectfully Submitted,
BLAKELY, SOKOLOFF, TAYLOR & ZAFMAN LLP

Date: August 2, 2007
